Office Action Summary

Application No. 09/925,836	Applicant(s) SCHOLZ ET AL.	
Examiner Nasser Ahmad	Art Unit 1772	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) Responsive to communication(s) filed on 16 April 2004.

DETAILED ACTION

Rejections Maintained

1. Claims 43, 46-48 and 50-56 are rejected under 35 USC 103(A) as being unpatentable over Samonides in view of McNaul for reasons of record in the Office Action mailed on January 16, 2004.

Response to Arguments

2. Applicant's arguments filed April 16, 2004 have been fully considered but they are not persuasive.

Applicant argues that the "non-final state" means not in a final state or fully developed or fully matured state. This is not deemed to be convincing because Samonides teaches that its adhesive is dried prior to printing but it is not directed to its final state as alleged by the applicant. As stated in the last Office Action, and mention herein, the adhesive is not in a final cured or fully developed state as the film is being formed. Further, there is no showing or evidence submitted by the applicant that Samonides' adhesive is not in the non-final state, specially in the absence of any point where the non-final state become final state.

Applicant also argues that McNaul fails tot each the specific state of the PSA at the time the vinyl is applied, rather it teaches pre-formed elements. This is not found to be persuasive because McNaul was cited to show the presence of a film between the adhesive and the printed indicia. If McNaul had taught the claimed non-final state of adhesive, then it would have anticipated the claimed invention.

Art Unit: 1772

As for claim 46 being a continuous process, Samonides clearly teaches that the process is a continuous process.

Thus, in the absence of any evidence to the contrary, it remains the examiner's position that the instant claimed invention would have been obvious to one having ordinary skill in the art as discussed above.

Allowable Subject Matter

3. Claims 38-42, 45 and 49 are allowed.

Conclusion

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

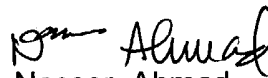

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
